WOTLR Director Fred Butalla missed the August member meeting because he was away on a secret mission. Where in the World is ~~Carmen San Diego~~ Director Fred Butalla? Nobody knows for certain, but these pictures appeared in our in-box just before press time.

These photos of a white Cadillac Lyriq out in the wild were taken by an amateur photographer on an exploration junket to Michigan.

The only clue we have as to where these came from is the fact that they were the only thing attached to an e-mail marked: "Director's Message". The mystery may never be solved, but enjoy these photos of a pre-production Lyriq.

Until next time, motor on,

Fred

The Standard of the World is published monthly. Stories, technical papers, calendar events, ads, classifieds, and photographs are gratefully accepted. Member Video Page

This is the spot where we feature a short story of your car, a project you are working on or any tips you want to share with the club.

This month's video is a farewell to our "foster" Bicentennial Eldorado. We had fun working on this car and made a lot of videos of repairs, now it's time to say "Bye-Centennial": <https://youtu.be/3v89n-rEX0w>

Left to right: 1976 Bicentennial Eldorado, driving up the ramp, loaded and ready to go!

This is a great example of how easy it is to shoot a repair video or a video showing off your car. We are reaching a large audience with helpful videos. If you would like to share your knowledge, please consider making a video and uploading it to our YouTube Channel, you could be helping Cadillac owners around the world! Send your video to: westofthelakeclc@gmail.com

Just a reminder...

All CLC regional members are required to be members of the National Cadillac & La Salle Club as well. Among the many benefits that the CLC offers, they carry insurance coverage for all CLC events. This coverage will cover only members in the event that something happens. If you are not a National CLC member, please contact the National office today.

After taking the month of July off, we celebrated our successful Grand National with a summer picnic on August 14th.

Burgers, chicken, hot dogs and sausages plus plenty of side dishes including some fantastic homemade cookies and desserts were capped off with a parking lot of beautiful cars and the company of great friends. The weather was a little cool, but the day was great.

BEACON HILL® | 

A LIFESPACE COMMUNITY®

West of the Lake Region Members spent a beautiful Thursday evening in August sharing our cars and memories with the residents of Beacon Hill Senior Living Community in Lombard.

Residents relived the memories of their youth and WOTLR members made new friends. Region member Jacob Szot and his father Steve were our hosts, providing dinner.

This is our annual visit with the nice folks at Lexington Square of Elmhurst. They host an open house for residents and their families with food, entertainment and our beautiful cars to bring back memories and share stories. If you attend one show this year, bring your car and your heart to Lexington Square. You'll leave filled with the joy of meeting some of the nicest folks around, and they will cherish our visit.

Please pre-register with Ron Schweitzer, 630-956-3504 or e-mail: brghm58@yahoo.com

After seven months of being foster parents to a 1976 Cadillac Bicentennial Eldorado Convertible, we had to say good bye as the car was shipped off to its new home. But we didn't have to say good bye for very long, just four days after the car left us, the new owner flew us out to Beverly Hills, California to welcome the Bicentennial to its new digs. That was followed by a trip up the Pacific Coast Highway and a stop at the Pebble Beach Concours d'Elegance where we saw some very interesting Cadillacs.

GM to Double the Super Cruise Road Network

Hundreds of thousands of additional miles of roads in the U.S. and Canada can be explored hands-free

- GM vehicles built on the VIP electrical architecture will be the first to receive the update later this year
- To date, GM customers have driven more than 34 million miles with Super Cruise engaged

General Motors announced that Super Cruise, the industry's first true hands-free driver assistance technology, will soon be expanded so that it works on even more roads, giving customers greater accessibility to hands-free driving. By doubling the Super Cruise road network, hundreds of thousands of additional miles of roads in the U.S. and Canada can be explored hands-free.

Cadillac Escalade with Super Cruise

For new vehicles in the GM portfolio built on the VIP electrical architecture, the expansion will be available later this year and will be delivered at no additional charge, over-the-air starting in 2022 on Super Cruise-equipped models.

Super Cruise currently works on mapped divided highways, known as interstates. This expansion will enable Super Cruise to work on many additional state and federal routes, a combination of undivided and divided highway roads. A few notable routes with large sections coming online with this expansion include:

- The Mother Road – U.S. Route 66
- Pacific Coast Highway – CA Route 1
- Overseas Highway – U.S. Route 1
- Trans-Canada Highway

When Super Cruise is engaged, the vehicle's precision LiDAR map data, real-time cameras, radars and GPS keep the vehicle traveling along the lane path for a hands-free driving experience. These systems work together through "sensor fusion" to create a sensory field around the vehicle that assists in keeping it centered in the lane while elevating the driver's comfort and convenience.

Super Cruise accelerates or brakes the vehicle to maintain a selected following gap from a vehicle ahead, steers to maintain lane position, and on select models when offered, can perform both driver and system-initiated lane changes to pass slower traffic and to move from a lane that may be ending, while monitoring the driver's head position and/or eyes in relation to the road to help ensure driver attention.
