

1964 Fleetwood Eldorado - \$70,000

"MARIAN" is a two-owner, mostly original, Los Angeles car. It is likely the finest and most authentic 1964 Eldorado extant. A few panels needed refinishing over the years, but the rest of the car, including the interior, top and spare tire, are original. The original owner, Marian Sisk, traded her '58 Series 62 white-with-red convertible for this car at Hillcrest Cadillac in Beverly Hills. Her husband, Bob, gave her one of the first California "vanity" plates for Christmas in 1970: MARIAN. The present owner and close friend of the original owner, Richard Stanley, inherited the car in 1995 and has maintained it in top condition ever since. Sales and service records go back to the date of first delivery.

This rust-free, fully-functional Eldorado has about 53,000 pampered original miles and every option except Guidematic and positraction. It drives as it looks and is a great tour car. Many tubs of extra parts acquired over decades of collecting are included, including spare Eldorado-only stainless rocker moldings. Also included at this price is my nearly 50-year collection of every piece of literature I know of on 1964 Cadillacs including the small and large dealer color and upholstery catalogs. Car is in Los Angeles, so local pick up of the car and parts would be ideal. If you want a clean, solid "survivor" example of the 1964 Eldorado, this is your choice.
